

# DEESHA BEERACHEE

## SOFTWARE ENGINEERING STUDENT

### PROFILE

I am currently pursuing my tertiary education in Software Engineering at the University of Mauritius (UoM) and is in Level 2. I have learned to be more responsible and pragmatic over these months of learning, I can now handle a task that has been assigned to me with greater ease and I can also grasp any realistic circumstance that may be presented to me in the future. I am hoping to get a job in the sector of Information & Technology that will allow me to complete a particular objective on scheduled time and at a higher standard.
